

NOVA 2 Modular Medical Tablet Cart

SKU: T2517

<https://www.tryten.com/nova-2-modular-medical-tablet-cart.html>

Designed and manufactured by Tryten, this modular point-of-care tablet cart secures an uninhibited connection for caregivers with their patients, the global medical community, and a rapidly expanding collection of medical tablet apps. Created by Tryten for medical environments committed to pioneering advancements in healthcare technology.

Hospital Grade Design

- All aluminum surfaces are hospital-grade anodized and wipeable
- Optional antimicrobial coating is available for all powder coated surfaces
- Sleek and minimalist form without compromising on function
- Tip-resistant 4-wheel base features interlocking bases for compact storage and premium casters (2 locking and 2 non-locking). Whisper-quiet, corrosion-resistant, non-marking wheels which reject debris are excellent on both carpet and hard floors

Optional Accessories

- Powered wipeable 6W + 6W stereo Bluetooth speaker
- Rugged wipeable iPad cases
- Wipeable work surface
- Wipeable storage basket
- iPad hand strap

Versatile

- 180-degree tilt, 360-degree rotation and 360-degree pan
- Adjustable positioning enables a full range of motion
- Aluminum ergonomic mobility handle provides effortless push/pull steering throughout hospitals, clinics and other medical facilities
- Accommodates a wide variety of tablets: Apple iPad Air, Mini, Pro, Microsoft Surface, Samsung Galaxy Tab, Google Nexus, and many others

More Optional Accessories

- Cable lock
- External battery for mobile iPad charging
- Sanitary wipes holder
- Scanner holder
- Bluetooth keyboard holder
- Dual USB charger concealed in power supply enclosure

Discreet Ingenuity

- Undefeated keyed-alike locking bracket system secures valuable hardware and data
- Pre-installed 9' Green Dot Certified Hospital Grade power extension cable and integrated power cord wrap bracket
- Concealed cable management channel allows for discreet and uninterrupted charging via Apple Lightning Connector and Micro USB
- Nesting base design allows for optimum storage efficiency
