

NOVA 1 Mobile Medical iPad Stand

SKU: T2516

<https://www.tryten.com/nova-1-mobile-medical-ipad-stand.html>

Designed from the ground up for hospitals, clinics, and other medical environments, this rolling cart features a secure tablet enclosure, concealed cable management, and unparalleled warranty and support. All aluminum surfaces are hospital-grade anodized and wipeable. An optional antimicrobial coating is available for all powder coated surfaces.

Universal Enclosure

- Universal tablet holder
- Fabricated in steel and powder coated mac silver
- Able to house all models of the following popular tablet products: Apple iPad, Samsung Galaxy Tab, Microsoft Surface, Google Nexus, Dell Venue, and Asus VivoTab (with and without a tablet safety case)

Options

- Custom color, branding, and height
- Antimicrobial coating
- Standard bracket (iPad 1-4, Air 1/2, Pro 9.7") or Large Bracket (iPad Pro 12.9")

Functional & Secure

- Tablet enclosure affords 180 degree tilt
- 360 degree turn (portrait to landscape)
- Aluminum anodized swivel head that attaches the iPad holder to the pole
- Keyed-alike locking bracket system (zinc alloy tubular plunger lock) to keep your tablet's valuable hardware and data secure.

Accessories

- Powered, wipeable bluetooth speaker with adjustable bracket
- RUGGED Antimicrobial iPad Case
- Work surface
- Secondary USB port

Powerful Solution

- Includes 9' hospital grey Green Dot Certified hospital-grade power extension cable
- User-friendly power cord wrap bracket (machined in aluminum and anodized clear silver)
- Power supply box fabricated in powder coated steel attached to the underside of the rolling base keeping cords secure and tidy.
